The image shows a detailed pay table for the 'Lucky Clover' slot game. It features various symbols and their corresponding payouts for different combinations (5, 4, 3 symbols). The symbols include Wild (clover), Scatter (star), 7, Banana, Horseshoe, Bell, and various fruits (cherries, grapes, peaches, apples). The Wild symbol has a special rule: it appears on reels 2, 3, and 4 and substitutes for all other symbols except the Scatter symbol. The payouts are listed in a grid format.

Symbol	5	4	3
Wild (Clover)	-	-	-
Scatter (Star)	500	100	15
7	3000	200	50
Banana	100	-	-
Horseshoe	500	100	40
Bell	200	50	20
Fruits (Cherries, Grapes, Peaches, Apples)	100	30	10

All pays in credits.
Only highest win paid on each played line.
Substitution rules all pays and plays.

Game rules

Wild symbol "Lucky Clover" - substitutes for all symbols at all positions of the reel, where it has appeared, except for the scatter symbols "Banana" and "Star". Combinations of Wild symbols only do not pay wins.

Maximal line win is paid by 5 x "7" on a pay line.

Scatter symbols "Banana" and "Star" pay scatter wins and do not trigger any bonus feature.
